

THAW'S LAWYERS HOLD OUT HOPE

File Their Affidavits That Thaw Is Not Insane
And Can Handle His Affairs.

THIS IS THE POINT AT ISSUE NOW

Jerome Is To Have Until Monday To Bring Contrary
Proof--Papers Will Be Filed On Saturday
Afternoon.

[BY ASSOCIATED PRESS.]
New York, March 22.—Justice Fitzgerald today excused the Thaw jury until next Wednesday morning. Justice Fitzgerald has designated two o'clock tomorrow afternoon as the time for the defense to present its affidavits in the clerk's office and has given Jerome until Monday to make response to the showing of the defense.

Clifford Hartridge stated today the affidavits to be presented in Thaw's

behalf would be made by his attorneys and the various alienists who have appeared for the defense. These affidavits merely will state that Thaw is at present able to advise his counsel and to fully understand the proceedings against him.

"That is all the law requires us to say," said Hartridge. "The only question at issue is whether or not he understands the proceedings against him. We claim we can produce overwhelming proof that he does."

HITCH IN GREATER PITTSBURG PLANS

Citizens of Allegheny Threaten to
Carry Fight to United States
Supreme Court.

[SPECIAL TO THE GAZETTE.]
Pittsburgh, Pa., March 22.—This was the date set for Greater Pittsburgh to become an accomplished fact, following the expiration of the time allowed for action on the remission of the state supreme court, which ten days ago handed down a decision declaring the consolidation act lawful. But owing to the continued opposition of the people and officials of Allegheny and their announced intention to carry the matter up to the United States supreme court it may be a long time yet before the consolidation of the two cities is effected. Allegheny has been contesting the merger since the proposal was first brought before the legislature more than a year ago and Mayor Charles F. Kirschler of that city declares the fight will be continued to the last ditch. In the Greater Pittsburgh election held last June Pittsburgh voted for the consolidation by a majority of over 25,000 while Allegheny voted two to one against the proposal. After the election the matter was carried to the superior court and thence to the supreme court of Pennsylvania, both of which tribunals sustained the finding of the lower court and declared the Greater Pittsburgh bill constitutional.

JOHN L'S SPARRING PARTNER VS. NEGRO

"Big Jim" McCormick and Jack John-
son Will Try Conclusions at
Omaha Tonight.

[SPECIAL TO THE GAZETTE.]
Omaha, Neb., March 22.—Jack Johnson, the colored heavyweight of Topeka, and "Big Jim" McCormick, former sparring partner of John L. Sullivan, are carded for a fifteen-round bout in Omaha tonight under the auspices of the Osthoff Athletic club. It will be their second meeting in the ring. The two are regarded as evenly matched and are counted upon to put up a slugging fight.

Neary and Memic to Meet.
Milwaukee, Wis., March 22.—The best boxing show arranged by the Badger Athletic club this winter is to be pulled off at Schlitz's park tonight. The wind-up will bring together Charlie Neary of this city and George Memic of Chicago. The agreement provides for a ten-round bout at 133 pounds. Several promising preliminaries have also been arranged for the show.

HARVARD AND YALE VERSUS PRINCETON

Subject of Triangular Debate: "Is Dis-
tribution of Governmental Power
Adapted to Modern Conditions?"

[SPECIAL TO THE GAZETTE.]
Princeton, N. J., March 22.—The debaters of Princeton are to have their hands full tonight in upholding the honors of their school. Harvard has sent a team here to engage the Princeton debaters, while Princeton has sent a second team to New Haven to engage in a forensic tilt with the chosen debaters of Yale. The question to be debated at both places is the same, as follows: "Resolved, That the present distribution of power between the Federal and State Governments is not adapted to modern civilization, and calls for readjustment in the direction of further centralization."

GOVERNMENT PLANS TO MAKE TORPEDOES

Factory is to be Built at Newport and
All Parts But Compressed Air
Flasks Will be Made.

[SPECIAL TO THE GAZETTE.]
Washington, D. C., March 22.—Plans have just been completed by the naval bureau of ordinance for the construction of a torpedo factory at Newport naval station. This will be the first construction of a torpedo factory at Newport naval station. This will be the first time the government has undertaken to make its own torpedoes on a large scale, heretofore all torpedoes of that kind having been procured under contract from private makers. The new factory will give employment to at least 200 skilled workmen as soon as it is in running order. It is proposed to make every part of the torpedo with the exception of the steel flasks, which contain the compressed air used to drive the engines and propel the torpedoes. Material of particular excellence is required for these flasks, owing to the high pressure they are obliged to sustain, ranging in the case of the latest torpedoes up to 3,000 pounds to the square inch. The machinery necessary for their manufacture is expensive and expert workmanship is required, so that it is believed to be cheaper to procure them from the concerns now making similar flasks for commercial uses than to undertake to make them in a government shop.

CHESS PLAYERS TRY TO REGAIN TROPHY

American College Experts Begin Game
With English Students
Tomorrow.

[SPECIAL TO THE GAZETTE.]
New York, March 22.—The American team of college chess players completed their work of training and practice today in preparation for the cable chess match with the English team tomorrow. The American team is made up of players representing Columbia, Harvard, Yale, and Princeton, while players of Oxford and Cambridge universities make up the English team. If the Americans win it will mean the recovery of the Isaac L. Rice international trophy, which has been abroad since 1903. Play will begin tomorrow morning, the American end of the contest being conducted from the quarters of the Isaac L. Rice Chess Club in Second Ave. The contest will continue until 6 o'clock in the evening, when the matches left unfinished will be adjudicated by W. E. Napier, who has been selected as referee.

Knowlton, Madison, representing Wisconsin university; and Harry Stevens of Kenosha, representing Lawrence university.

GREATEST OF TURF EVENTS OF WINTER

Crescent City Derby, Worth Ten
Thousand Dollars, Will be
Run Tomorrow.

[SPECIAL TO THE GAZETTE.]
New Orleans, La., March 22.—Tomorrow the banner event of the winter turf season, the classic Crescent City Derby, will be run and won at the Fair Grounds. The event is exciting the usual keen interest among the turf followers and a record-breaking crowd is expected at the track. It will be the fifteenth renewal in the history of the race, which year by year has gradually grown in value and importance until this year the winner will pull down a \$10,000 stake, the first of its size ever offered here. From present indications the horses that will go to the post will comprise as fast a lot of three-year-olds as ever faced the starter's flag. Betting on the race is already very brisk and an immense amount of money will change hands on the result.

NEW MUSIC HALL OF MILWAUKEE-DOWNER

New Twenty Thousand Dollar College
Building Dedicated and For-
mally Opened.

[SPECIAL TO THE GAZETTE.]
Milwaukee, Wis., March 22.—The handsome new music hall of Milwaukee-Downer College was formally opened today. The structure is known as the Albert Memorial hall and is the gift of Mr. and Mrs. Frederick W. Siver in memory of their son, Albert E. Siver, who was drowned in August, 1903, in Nantucket Bay, Massachusetts. The hall cost \$20,000. It is of the late English gothic style and is connected with the halls on either side by handsome arcades.

AMBASSADOR BRYCE WELCOME IN GOTHAM

SLAPS UNIVERSITY RIGHT ON DEAD LANGUAGE WRIST

Assembly Forces Through The Bill Which
Precludes These Studies From
Entrance Requirements.

[SPECIAL TO THE GAZETTE.]
Madison, Wis., March 22.—After wrangling for an hour, the assembly today adopted the Bancroft resolution to require the state university to admit students without any previous study of Greek, Latin or other foreign or dead language. This resolution was introduced weeks ago and since then the university has anticipated it by making the change proposed. Today the pro-university people said to pass it, would be a slap at the university, but the others prevailed with the argument that the university ought not to be allowed to undo its action, and that the legislature should make a record of its opinion that the study of the dead languages ought not to be required for entrance to the university. The senate passed the bill to appropriate \$3,000 for work on the interstate park on the St. Croix river. The social democrats debated for various of their socialist memorials to congress but none were adopted.

IRONTON LUMBER CO. HAS SERIOUS BLAZE

Hundred-Thousand-Dollar Fire Start-
ed at Ohio City in Congested
Lumber District.

[BY ASSOCIATED PRESS.]
Ironton, O., March 22.—The loss of more than a hundred thousand dollars has already been sustained by a fire which started at the Ironton Lumber company's yards today at noon, the scattered sparks having spread it to a dozen different sections of the city. The fire department is unable to cope with the flames and help was secured from Ashland, Ky. Some of the finest residences in the city have been destroyed.

DETECTIVE JOHN COWAN SHOT BY BY DESPERADO

IN HIS PURSUIT AND EFFORT TO CAPTURE A WOULD-BE TRAIN-WRECKER LAST EVENING.

AT MISSISSIPPI CROSSING

Located Three Miles North of Janesville—Fiend Was Attempting to Plug the C. & N. W. Derrail and Ditch the 8:20 Passenger—Cowan's Machine-Gun Failed Him and Criminal's Accomplice, on Guard Behind Telegraph Pole, Fired Eight Times.

In an encounter with two desperate characters whom he discovered in the act of plugging the derail switch at Anderson's Crossing last evening, Detective John W. Cowan of the St. Paul road was wounded by a 32 calibre revolver bullet which opened up a bad wound in his right limb, a few inches below the hip. Since March 12 these murderous individuals have been cutting wires and otherwise tampering with the mechanism operated by the interlocking tower, which is located three miles north of this city, and the night operator has been in constant terror lest some of their diabolical work should be accomplished without his knowledge, with a terrific wreck as the consequence, or proceeding on his lonely errand to repair the damage done, he should be attacked and overpowered in the darkness.

Fiends Surprised at Work
For three nights past Detective Cowan had been on guard. Sometime after eight o'clock last evening, while cautiously making his tour of surveillance some distance from the tower, he saw a figure emerge from the shadows and commence operations on the North-Western derail. Stealing upon the man as he bent over his task, the detective suddenly demanded of him to explain what he was doing and in the same breath, as he drew his automatic revolver, commanded: "Hands up!" Instead of complying the train-wrecker took to his heels. Cowan's machine gun, for some inexplicable reason, failed to respond to the trigger, but he joined in quick pursuit and was gaining on him when another individual, who had evidently been standing on guard behind a telegraph pole on the left, opened fire on the detective to cover his accomplice's retreat.

Patrol Wagon Called Out
A sharp, tingling sensation in the fleshy part of his right limb suddenly halted the pursuer, and the wretch behind the pole, having emptied eight cartridges and perceiving that one of his bullets had taken effect, joined his assistant in crime in flight, and both were soon lost to view. Meantime the sounds had reached the operator at the tower and he hastened to the scene, arriving in time to help stop the flow of blood from the wound and assist the injured man to the tower. No time was lost in acquainting the local office, and through it, the police department, with what had happened. Word was sent to Milton, instructing Conductor Gallagher, in charge of the southbound train, due here about 9:35, to take Mr. Cowan aboard the passenger at Anderson. About the same time City Marshal Appleby and officers Mason and Brown started for the scene with the patrol wagon.

Bullet Ploughed Through Leg
Russell's ambulance and Dr. T. W. Nuzum were at the depot when the train pulled in. The injured man was able to walk with some assistance to the vehicle and was taken with all possible haste to the Palmer hospital where Dr. Nuzum opened and cleaned the wound with antiseptics. The bullet had been deflected in its course as it entered the fleshy part of the limb and had ploughed its way out without touching the bone or rupturing any large blood vessels. Blood poisoning is not to be feared and Detective Cowan will be sound and fit for duty again within a month's time, according to the physician. He was reported to be getting along very nicely this morning. His family resides in Milwaukee and a reassuring message regarding his condition will probably be sent thither today.

Lone Tramp Captured
The detective's statement made to the physician was as follows: "I was standing on our tracks when I saw a man meddling with the North-Western derail. I ran over there and took after him. Was gaining when another man standing on the left by a telegraph pole opened fire. He shot eight times and then the two men ran away across the fields."

City Marshal Appleby and his assistants made a tour of the premises and while moving along the tracks espied at some distance a man who appeared to be crouching near a tiny fire. As he started to move away, alarmed by their approach, the city marshal opened up with his machine gun. The tramp reconsidered his original plan and waited for them. He gave his name as James Ryan and his home as St. Louis; said he had come in about three o'clock in the afternoon and had decided to make his bed in the open for the night; insisted that he had been sleeping and denied any knowledge whatever of the stirring events which had been transpiring about him. No weapon was found upon him when his clothes were searched, but this, of course, establishes nothing one way or the other. Detective Cowan thought that the man he pursued was about 35 years of age. The tramp is a frowsy-bearded, shifty-eyed, specimen of the genus hobo, about 45 or 50 years of age.

Attempt to Wreck 8:20 Train?
Were the designs of the would-be wreckers on the North-Western Junction due here at 8:20 from Jefferson Junction and bringing passengers from Milwaukee and Pond du Lac? The theory seems a likely one. Was the motive robbery or pure malice, revenge for some fancied wrong? The railroad officials are inclined to accept the latter hypothesis.

REV. J. W. SCOTT VICTIM OF GAS

OVERCOME DURING NIGHT AND FOUND BY NEIGHBORS THIS MORNING.

BELIEVED OUT OF DANGER

Retired Congregational Minister, Living Alone at 217 S. High St., Just Escaped Death by Asphyxiation.
Rev. J. W. Scott, a retired Congregational minister who lives alone at 217 South High street, was overcome by illuminating gas during the night and was only saved from death by the activity of Mrs. George Anderson, who with her husband, occupies a portion of the house. After being discovered in an hour was spent before the efforts to resuscitate him were successful, but it is believed that he will recover unless the heart proves unable to withstand the strain.

Door Broken Down
When the Andersons awakened this morning there was a faint odor of gas about the house, but an inspection of the jets and stove showed that none was escaping in their apartments. Shortly after nine o'clock it occurred to Mrs. Anderson that the gas might be coming from the adjoining rooms where Mr. Scott lives. To ascertain if he were up and about she listened at a door that joins the two apartments, but no sound could be heard. A car which could be but faint sounds were detected. Mrs. Anderson then tried the outside door, only to find it locked. Mrs. Cornelius Stout, who resides across the street, was summoned and her son, Neil Stout, broke in the door. Mr. Scott, completely overcome, was found lying on the lounge. Dr. James G. Son was called and, aided by Mrs. Anderson, Mrs. Stout, Mrs. Farrell and William Morrison, brought the victim back to consciousness. The same neighbors cared for him during the day and by noon he was considered out of danger.

Gas Turned on Accidentally
It is evident that the gas escaped from a range, which Mr. Scott has in his rooms, but never used. The valves on the stove are not protected and one was probably turned as Mr. Scott walked by before retiring last evening. During the night the gas filled the room and at some time he must have awakened, risen from the bed and gone to the lounge. He failed to comprehend the situation when he regained his senses and believes he is suffering from an attack of the gripe.

Is Superannuated Minister
Mr. Scott, who has been a resident of Janesville for seven or eight years, is a superannuated Congregational minister. He came here from Iowa and is a retired member of the ministerial association in that state. Since being in Janesville he has preached at different country churches and of late has been conducting Sunday afternoon services in the tower of the Prairie St. church. His wife died a few years ago and a daughter, Mrs. Page of Long Lake, Minn., has been notified of his accident and will probably come to care for him.

ELKS' ROOMS TO BE READY BY MAY 15

According to Contractor Denning Who is in Charge of the Remodeling Work.
Unless Contractor Denning, who has charge of the work of converting the apartments in the Myers theatre block into commodious club rooms for Janesville Lodge No. 254 of the Benevolent and Protective Order of Elks, is greatly mistaken in his estimate of time needed, the rooms will be ready for occupancy by May 15. The interior finish will be of birch with one panel doors. It is expected that the lodge will take possession with a roster of 200 names.

LOCAL PARAGRAPHS

Beefsteak Club Session: At the Hotel Myers this evening the Beefsteak Club will enjoy its fourth dinner and social session.

Final Skating Party: Gray & Carter's orchestra played for the closing private party at the roller-skating rink last evening. The attendance was good and the devotees bade farewell to the pastime with deep regret, the series of parties given through the winter months having proven most enjoyable. On April 1 the West Side will be re-opened as a vaudeville theatre, with two performances daily, Sundays excepted.

Benefit Netted \$370: Receipts for the benefit entertainment given at the West Side rink for Louis Hemmens have been turned over to him by the committee. They amounted to the goodly sum of \$370.

Imperial Band Made \$100: The net receipts for the Imperial band, after expenses for the recent minstrel performance had been paid, amounted to \$100.

Large Audience: There was a good and appreciative audience at the Mary Kimball mission last evening to listen to Rev. S. E. Very of Oshkosh. Rev. Very is a very interesting and earnest speaker, and those who heard him last evening will be pleased to hear him this evening. Everybody cordially invited.

The Broom Brigade: A still alarm was sent in at 1:20 and two wagons responded to the call to Maple Court, where a grass fire was found burning dangerously near some dwellings. The "Broom Brigade" was used to advantage and the flames extinguished.

ISSUE INVITATIONS FOR BALL. Eighth Annual Event Takes Place Easter Monday.

The Unique club have issued invitations for their 8th annual ball, which event takes place Monday, April 1, 1907, at Assembly hall. Kneff & Hatch's orchestra of seven pieces has been engaged for the occasion, and the hall will be tastefully decorated. It is the endeavor of the members of the club to make this party fully as enjoyable as their previous ones and all indications point to a most enjoyable time for those who attend.

JANEVILLE MAN IN ON BONANZA

PAUL RUDOLPH STRUCK IT RICH AT GOLFFIELD, NEVADA.

SHARES WORTH \$10 EACH

Holds Ten Thousand Shares in the Little Florence Which Cost Him from 25 to 30 Cents.

If reports are true, Janesville has at least one citizen who will make a fortune out of Goldfield mining stock. Paul Rudolph, alderman from the Fifth ward, is holder of nearly ten thousand shares in the Little Florence mine at Goldfield which cost him between twenty-five and thirty cents per share and which today are quoted on the Goldfield exchange at ten dollars each. As far as known Mr. Rudolph is the only Janesville man interested in this particular mine, although nearly fifty thousand shares are said to be held by Madison men.

Verifies Report
Mr. Rudolph said this morning: "I own nearly ten thousand shares in the Little Florence mine at Goldfield. I paid twenty-five cents for some of the stock and thirty cents for some of the rest and today it is worth \$10 a share. The mine is one of the richest in the district and is taking out from fifty to a hundred thousand dollars worth of ore. We expect a ten dollar dividend very shortly and as far as I can learn there is no more stock to be had."

Going West
As was stated yesterday Mr. Rudolph expects to go to Goldfield himself in a short time and will sell his business in the Fifth ward. In fact the deal will be closed tomorrow or next day. Mr. Rudolph has also struck it rich near Benton, this state, in the lead and zinc district and is a large stockholder and a member of the board of directors of the Fox Lead and Zinc Company which refused \$240,000 for their holdings recently.

Western Talk
The reports relative to the Little Florence that come from the west are most flattering. Instead of ore running \$30,000 to the ton, the correct figure is \$50 per pound or \$50,000 per ton. Fifteen tons of ore which were taken out were carried under armed guard to the bank vaults and deposited there. These fifteen tons are understood to be worth \$900,000. The number of shares out is about 700,000, so that this ore alone will net one dollar for each share.

FINE APPOINTMENT FOR MRS. PARSONS

Former Janesville Resident to Be Supervisor of Music in Cleveland.

Schools After April 1.
Supervisor of Music in the Cleveland, Ohio, public schools is the position which will shortly be filled by Mrs. Harriet Parsons, a former well known resident of the Bower City. For two years past Mrs. Parsons has fulfilled the duties of a similar position at Sandusky, Ohio, with high credit to herself and the community and her call to the new position which she is to assume in the larger city with a substantial increase in salary, after April 1st, is a recognition of her unusual ability in this line of work. Her impending departure is greatly regretted in Sandusky, where she has made many warm friends.

PLANS FOR NEW YARDS NOT DRAWN

NEW PHASE OF NORTH-WESTERN PROJECTED IMPROVEMENT.

SURVEYORS HERE YESTERDAY

Were Measuring for Double Track to Harvard and Their Visit Set Rumors Afloat.

North-Western railway company surveyors were in Janesville yesterday, measuring for the proposed double track from Harvard to Evansville, and since their visit rumors of new shade have been floating about railway circles here. It was reported today that the double track would be laid this year, but that nothing definite concerning the projected Janesville yard had been determined upon. In a roundabout way it was learned that one civil engineer had already drawn three sets of plans for the roundhouse, shops and yards, but all had been rejected, being too expensive. Of course plans of another engineer may have been accepted, but it is not considered probable. Janesville officials have heard nothing new within the past two weeks and the report that Agent D. J. Lindsay and Yardmaster David Griffin had seen plans while visiting in Chicago is denied.

BASEBALL WARBLES.

The Strong Lineup of Pittsburg Nationals for 1907.

WAGNER, CLARKE, LEEVER.

Possible That Homer Hillebrand, Former Princeton Star, Will Join Team Later—The Ambitious American Association Worries the "Big Leaguers."

The first official announcement of the makeup of the Pittsburg National league baseball club for 1907 was made a few days ago. It is as follows: Pitchers, Leever, Willis, Leifield, Philippi, Lynch, Camnitz, Brady and Miller; catchers, Gibson, Phelps, Harry Smith and Huston; infielders, Nealon, Abbatello, Wagner, Leach, Storke and Sheehan; outfielders, Clarke, Hallman, Clymer and Anderson.

There is a possibility that Homer Hillebrand, formerly of Princeton, will join the team later. This young man, who, in the opinion of Hamilton, Fred Clarke and many other good judges, would be one of the best left handed pitchers the game ever saw but for the klut in his arm, went to the Drs. Mayo, the famous surgeons at Rochester, Minn., to have his arm examined, but a report as to the result has not been received at the office of the club. The peculiarity about Hillebrand's ailment is that, while it interferes with his continued pitching, it does not handicap his ordinary throwing, and if forced to give up twirling he may be seen in some other position.

All of the other players have at some time since they received their contracts notified President Dreyfus, of their acceptance.

The Pirates are on their preliminary training trip and plan to make lengthy stops at West Baden, Ind., and Hot Springs, Ark.

A feature of the Pittsburg training this spring is the scarcity of experimental players. Clarke has a pretty accurate line on every member of the party with the exception of Miller and Anderson. He has seen all of the others on the diamond and knows how they act under fire. Consequently his work should be a great deal easier than that of several other managers. Take Hamilton for example. The Cincinnati man must get acquainted with about half of his players before he can begin to tell them how to play his style of baseball.

It has been the policy of the Pittsburg club for years not to make any

BILLY HALLMAN, A PITTSBURG REFORMER. (Hallman is a former Louisville outfielder. He is a very able fielder, batsman and base runner. Captain Clarke paid a big price for him and considers him a most valuable addition to the Pirates.)

claims or promises in the spring. This year has not been an exception to the rule, and none of the officials of the club has made any prophecy concerning it. It is known, however, that Manager Clarke was not at all satisfied with the base running of the 1906 team and that he believes there will be an improvement in that department this year.

The major league magnates are not quite sure of the position the American association is getting into. This western minor league is growing ambitious and is anxious to be considered in the same class with the two major leagues. Being clever, baseball politicians, Messrs. Johnson and Pulliam appreciate the fact that they have no mean opponent to dispose of and will keep a sharp lookout for clouds in the baseball sky. A good poker player often gets away with a bluff, but in this Ban Johnson is sure to call and insist on being shown the cards face up.

Cleveland's American league ball club will this year pay in salaries to its ball players something over \$4,000 more than was paid last year. It has long been the custom of the Cleveland club to reward merit with cash, and this year will be the banner year. The club took twenty-one men south this spring as against twenty-five who were thrown out in Dixie a year ago. These twenty-one men will receive about \$4,000 in excess of what was paid the twenty-two men Cleveland began the season with last year. The addition of \$4,000 to the payroll of the Naps puts the Cleveland club right up among the top among the best payers in the business.

Cleveland and New York were neck and neck last year, with the honors about even. No other clubs in the American league compared with these two in the amount of money paid out in salaries.

Among other titles which Chicago's great baseball club has annexed is the pool championship of Missouri.

Youthful Remembrance. "Look, papa," said the small girl, as she and her father, passed, the church where the little one had been baptized. "There is the place where I was christened."

BOOMERANG THROWING.

Wide Interest Aroused in Unique Sport—Expert Advice.

With the revival of archery in England there has developed an interest in boomerang throwing as one of the diversions of country life in Great Britain and the United States. So popular is this sport that dealers in sporting goods of London, New York, Boston, Chicago, Philadelphia and St. Louis now carry boomerangs in quite as general a variety as golf clubs.

The implement which was the ingenious weapon of the wild tribes of Australia furnishes in the hands of an expert considerable entertainment. It is rather difficult to learn to make the boomerang return to the thrower after cutting a wide circle, as not only must the instrument be held at the proper

BOOMERANG AND POSITION AT START OF THROW.

angle when thrown, but a peculiar twist of the wrist must be acquired, while the direction of the wind is an important factor.

Nor can any ordinary mechanic construct this weapon. To be a returning boomerang the worked piece of wood must have certain lateral twists, and these curvings must be measured to a nicety. The weapon is also fitted with notches running laterally along the surface of the wood, the rough surface making it "bite" the air, the principle being the same as the indentations in the golf ball.

To throw the boomerang you must stand so that the wind blows toward your left front. If you stand facing the north, the favorable breeze must be from the northwest, and you throw the boomerang northeast. It should travel from right to left, the north being the far apex of its circular route, and return from the northwest. If you have skillfully thrown the boomerang, it should pass you in the air and, cutting a short circle behind you, return and spin down to the ground at your feet.

If the boomerang is thrown down the wind, it will never return to the thrower. If thrown straight against the wind, it will soar high in the air and come down edgewise.

In the hands of the Australians, a perfectly formed boomerang speeds like a butterfly and at the end of the flight flutters four or five yards above

FINISH OF BOOMERANG THROWING MOVE.

the thrower and gently drops to the turf. The boomerang does best in a light breeze. There is no record obtainable yet for amateur throwing, but 270 yards is a very good distance to hurl a returning weapon.

Shaughran to Trot.

The fast green pacer Shaughran, by Ananias, 2:05, dam Favorita, 2:23½, will be staked down the grand circuit this year. He is in Dan Kahle's string.

"For over thirty years," writes a gentleman in Los Angeles, "I have used Arbuckle's Coffee. Many times my family has tried other coffee only to come back to our old reliable, unchangeable Arbuckle's. No other coffee has this uniform never-failing aroma, I care not at what price. I have often wished I could tell you this." Many other people have the same opinion. Arbuckle's was the first roasted packaged coffee, and its sales exceed all the other

together. That it costs you less is due simply to our coffee-business being so much greater than any competitor's, in fact, it is larger than the next four largest firms in the world combined. We naturally can and actually do give better coffee in ARIOSA than anyone else can give for the price. Being the standard article it is sold at the narrowest margin of profit.

Some grocers will try to sell you instead loose coffee which the roaster is ashamed to sell in a

package bearing his name.

Don't take it, neither the looks nor the price indicate its cup quality. No matter where you buy Arbuckle's ARIOSA, or what you pay for it, it's the same old uniform Arbuckle's ARIOSA Coffee.

If your grocer will not supply, write to ARBUCKLE BROS., New York City.

WISCONSIN WEATHER FORECAST

Generally fair tonight and Saturday, continued rising temperature.

A GENTLE REMINDER.

Secretary Shaw says that capital cannot be made to invest in new railroad trackage by mandamus or through legislation or receiverships, and that it is the duty of every public man and every private citizen who addresses the public to place himself on record as promising that money invested in railroads shall be just as safe, just as secure, and entitled to the same measure of return as money invested in forest and factories.

This would seem to be a gentle reminder by Mr. Shaw to his former chief at the cabinet table, that now is the time to say something to re-establish confidence in railroad investments.

THE UNREST.

John D. Rockefeller says there is a current of unrest in the United States. John certainly ought to know what he is talking about but in this case his statement is a bit surprising.

The minds of some people are perplexed by this undercurrent of unrest. They do not comprehend it, and they are troubled lest it may mean more than mere unrest. In fact, the idea prevails to some extent that the signs of the times point to some great change in the social order such as was brought about by the establishment of democracy in the eighteenth century and the introduction of machinery in the nineteenth century. They fear that this will alter the basis of values, and thus they connect the "great" decline in stock prices with this conception of a tremendous change in the economic state.

This is worth considering but let us not go far astray from the fundamental fact, that any change that takes place now or during the century is not likely to abolish property rights, equality under the law, and the right to make the most of ourselves, these will be preserved whatever happens.

LOCAL POLITICS.

Now that the local politics have settled down to a state of quietude it is safe to say that some of the candidates are doing a heap of thinking regarding the possibility of their being elected. In the first and third there is no opposition to the republican nominee nor have the democrats anything to fear in the fifth. In the second and fourth however lively contests may be expected. Hedges will doubtless have no candidate to oppose him for mayor, and Badger will be the only one whom a democrat will be pitted against. The Tallman-Hendricks fight for the short term, justice of the peace, promises to wax warm although Tallman should win and have the support of every republican voter.

STILL A GOLD BRICK.

Last evening's Milwaukee papers announce that Isaac Stephenson has been handed another gold brick by his friend La Follette. This is putting it pretty strong. La Follette came to Madison with the avowed purpose of asserting his old time authority over the legislature and naming the next United States Senator. Forty-eight hours were enough to convince him he could not do so. Doubtless he tried but failed. As it now stands Stephenson is ready for the toga to be handed to him and Mr. Lenroot who does not know of the Moses of the La Follette days of rule is trying to snatch it for himself. Ex-Senator Hatten who served his master faithfully between buying up southern timber lands is also trying to get a peep at the toga and cast off shoes of Spooner to see if they will fit while Congressman Esch and Cooper would be very glad to have any misfit senatorial toga on hand given them regardless of fit. To say that Stephenson was gold bricked is putting it mildly. Only he is not the only one.

Evidently the United States senatorship is not for sale this winter at Madison.

Another wreck on the Pennsylvania road to its fast liver and this time the roads' officials announce that some one has tampered with their tracks. It was not Mr. Harri-man was it?

Former United States Senator Burton of Kansas is out of jail again. He has served his term on the complaint filed against him and promises to make it warm for the men who hounded him into jail.

Janesville streets are in far better shape this spring than for many years past.

Time and tide wait for no man neither does Wall Street.

Janesville promises to be a busy place this spring. Railroads and interurbans will keep things humming for a time at least.

Do not be too sure that this spring weather is going to continue. Remember that March came in as a lamb and if the old practice is followed will go out as a lion.

It will soon be time to hear the gentle tinkle of the spoon in the ice soda glass, and the merry click of the cash register as it records the purchase.

Dave Rose has returned to Milwaukee but the Boy Mayor is still on the throne dealing out wisdom to the multitudes in Dave's old place.

Is Thaw insane? This is what the public would like to know. So would Jerome and some of the experts who testified he was not have now decided he is. Judge Fitzgerald will have to decide this question.

Desperados who tried to derail a train north of the city last night and shot a detective who protected life and property should be hunted down without ceasing until found.

There is a surprise in store for some of the alderman that will be sprung later for their personal benefit.

Balance of Power.

Exchange: The New York World gives a summary of the anti-railroad legislation in twenty-eight of the forty-six states of the union. Such a mass of legislation has not confronted the Granger days of the country since the some of the legislation proposed is undoubtedly proper. Much of it is illadvised, hasty and thus harmful. Some of it is probably confiscatory in its effects. The states, many of which have hitherto been subservient to the corporations, now seem to be eager to rush even to extremes in pursuing them, apparently frightened by the steady accumulation of power over business on the part of the federal government.

The people, unable to obtain redress from the states for real abuses on the part of corporations, appealed to the power of the federal government. Now the corporations, unable to secure proper protection from extreme legislation on the part of the states, seem also inclined to turn to the federal government for protection.

The problem of establishing a true balance of power is now uppermost.

Wants Blind School of Its Own.

Evening Wisconsin: If the provision of public education for the masses is a duty of the state, how especially is it the duty of the state to provide public education for those who are deprived of sight.

The instincts of humanity re-enforce the promptings of public policy in favor of the enactment of the legislation for which Superintendent Pearce and Secretary Harbach, representing the Milwaukee school board, are arguing at Madison this afternoon. This legislation is comprised in a bill providing for the establishment in Milwaukee of a day school for the blind, and for an appropriation from the state treasury of \$200 per pupil toward the maintenance of this school.

This embodies a plan which has been found advantageous in the education of the deaf. The children attending the school will not be obliged to leave their homes, as would be the case if they were obliged to go to the state institution for the blind at Janesville. With their infirmities they are in need of the sympathy which the home affords and which no other place on earth equally supplies.

It is believed that there are enough blind children in Milwaukee to make the project of a separate school for the blind not incompatible with economy. But even were the contrary true, the education of the blind is one of the last things in the world which should be restricted by cold calculations of expense.

"Same Old Story"

A patient recently consulted Dr. Richards about needed family work. Had been paying \$10 each for gold crowns and was tired of the burden. Said had been doing so for social acquaintance and friendship sake, but couldn't see the use any more of paying twice as much for work as was necessary. This is the way people look at it. When they think. And the time most people think is when the bill is presented for payment. You may have the very best dental work obtainable in the city for \$5 a tooth and you may pay \$10 for the very same if you go blindly along. It's all in the way you go. Where you go for your dentistry. Will it not pay you to choose the right dentist before you begin the work? Office over Hall & Sayles' Jewelry Store.

HAD LIVED IN THE CITY SINCE 1846

Samuel L. Spoon Passed Away at an Early Hour This Morning—Funeral Sunday. Samuel L. Spoon, a pioneer resident of Janesville, passed away at his home, 107 Washington street, at an early hour this morning. The deceased was eighty-one years, six months and twenty-four days old and a native of Perry county, Pa. With his parents he migrated to Niagara county, N. Y., in 1853 and there lived until 1846. In that year he came to Rock county and with the exception of five years (1852 to 1857) spent in California, he had been a resident here ever since. Mr. Spoon was the oldest of six boys and all five brothers survive. They are Solomon, George and John F. Spoon of this city, Conrad D. Spoon of Richland Center, and Abram J. Spoon of the state of Washington. There is also left to mourn one sister, Mrs. Elizabeth Strang of Charles City, Ia. Funeral services will be held from the home, 107 Washington street, at half-past one o'clock Sunday afternoon.

OBITUARY.

Mrs. Jane Pixley. Mrs. Jane Pixley passed away at her home in St. Joe, Michigan, for the past thirty-six years an influential member of the church and social circles of that city. Mr. and Mrs. B. F. Pixley were for many years residents of Janesville, where thirty-six years ago they were greatly beloved by numerous friends. Mr. Pixley preceded his wife only a few years ago. There are four children left to mourn the loss of a devoted mother. Mrs. Pixley and Mrs. John L. Draper were sisters. A notice of Mr. Draper's death appeared lately in this paper.

LOCAL PARAGRAPHS.

Thirty-five Crows: Lee Snyder of the town of Center collected bounty for 35 crows' heads at the court house today. In Honor of Sisters: Miss Edna Rogers will entertain a small company of young ladies at her home on Washington street this evening. The party is in honor of the hostess' sisters, Mrs. Charles L. Reynolds of Perry, Ill., and Mrs. J. P. Dennett of Johnson Creek, Wis. Delicacies from Home: When the eighty-five Wisconsin university engineering students passed through the city this morning en route to Niagara Falls and other cities in the east the four Janesville boys in the company were greeted by relatives and friends and provided with supplies of "mother's cooking."

Unfortunate Pantomimist.

Many stories are told of misadventures in pantomimes which, however amusing to the onlookers, are no laughing matter for the unfortunate actors. On one occasion Mr. Poluski was taking the part of clown in a Liverpool theater. In jumping from the roof of a house the stage gave way and he fell a distance of 40 feet—luckily into a heap of sawdust. What hurt him more than the fall was the fact that, instead of receiving sympathy, he was actually fined for the damage done to the stage. Read the want ads.

ANOTHER CHURCH IS ORGANIZED IN CITY

Elder J. W. Larimore of Footville Completed Organization Last Night. Another church congregation has been added to the list of Janesville churches. Last evening Elder J. W. Larimore of Footville completed the organization of the "Church of Christ" in this city and a church organization composed of twenty-five members was perfected. The new church will immediately make arrangements for a place of worship and later buy ground and erect a church structure of their own. The Church of Christ has parishes in Footville, Milwaukee, Monroe, Richland Center and is very strong in Iowa.

MEDICAL MEN ARE TO MEET THIS EVENING

March Meeting of the Rock County Medical Society is to be Held Tonight. This evening the Rock County Medical Society will hold its March meeting in the Caledonian Rooms at eight o'clock. Dr. James Mills is the leader for the evening. Among the papers will be one by Dr. E. C. Helm of Beloit on "The Use of Individual Gups For Communion Services in Churches." Others who are on the program are Drs. B. L. Cleary, Edgerton; R. A. Schlerenzauer, Janesville; Guy Waude, Janesville, and C. M. Smith, Evansville.

OBJECTIONS RAISED BY LOCAL FIREMEN

North-Western Road Has Ordered That No Crew Changes Be Made Between Chicago and Baraboo. It has been ordered from the general offices of the North-Western railway company that after April 1 no change of firemen be made on freight runs between Chicago and Baraboo. Under present regulations a Madison division fireman works between Baraboo and Janesville and a Wisconsin division man between this city and Chicago. The former have been fighting for a run straight through to Chicago and the result has been the order referred to. Thus the Madison men are given the majority of paying runs and the Wisconsin division men have raised an objection. The grievance committee of the Wisconsin branch, Brotherhood of Locomotive Firemen, is in conference with the officials today and it is possible that the new order may be withdrawn.

Delight for the Youngster. A small boy will find infinite delight in hammering tacks into a block of soft wood. When one end is full he can turn it over and drive in more at the other, and so on, further employment being found in taking them out again, says Woman's Life. Small tacks, soft wood and a very light hammer, of course, are necessary.

Work by Instinct. Native signifiers of a Nigerian regiment in Africa are able to transmit a message by flag, lamp or heliograph in English with great accuracy, though they know nothing of the language.

EXPRESS CAR IS ROBBED.

Messenger Thrown from the Train Near Elkhart, Tex.

Palestine, Tex., March 22.—As train No. 4 of the International & Northern, north-bound, was leaving Elkhart, 12 miles below here, Thursday night, Express Messenger Winsley Womack, of the Pacific Express company, was knocked on the head and thrown out of the car.

He was not missed from the train until Palestine was reached, and a little later a telephone message was received from him at Elkhart, stating that he had been assaulted by robbers. The safe in the car was open when the train reached Palestine. The sheriff and a posse left Palestine on a special train for the scene of the robbery.

Houston, Tex., March 22.—H. W. Bean, local agent of the Pacific Express company, said when told of the robbery at Elkhart, that there was not over \$500 in the safe when the train left Houston, and it is improbable that more than that sum was taken on between here and Elkhart.

THREE CHURCHES UNITE.

Congregational, U. B. and Methodist Protestant Denominations to Amalgamate.

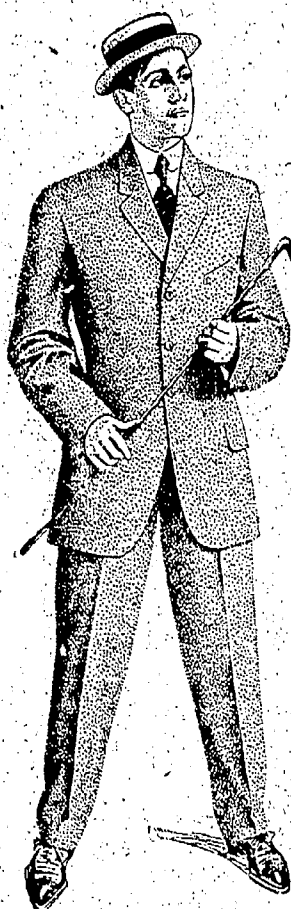

Chicago, March 22.—The special committee on polity of the Congregational, United Brethren, and Methodist Protestant churches adjourned at the Union Park Congregational church Thursday afternoon after formulating an act of union which, it is believed, will result in an organic consolidation of the three denominations.

The final act of the committee was the recommendation of a name for the new denomination. After long discussion the delegates agreed upon "The United Churches."

The act will be submitted as quickly as possible to the national councils of the three denominations for ratification, and then to the individual churches throughout the country. More than 1,000,000 church members will be affected by the union—887,042 in the Congregational church, 274,012 in the United Brethren, and 183,894 in the Methodist Protestant denomination.

Woman Guilty of Manslaughter. Coshooton, O., March 22.—The jury in the case of Ida May Bordenkircher, who was charged with second degree murder, returned a verdict Thursday night finding her guilty of manslaughter. The woman shot her husband Christmas day during a quarrel.

Navy Yard Building Burns. Pensacola, Fla., March 22.—Fire Thursday night completely destroyed building No. 1 at the Pensacola navy yard, entailing a loss estimated at \$175,000. The machinery and equipment for the gunboats Gloucester and La de Luzon were destroyed.

What is Truly Correct in Clothing and Shoes is Fully Demonstrated at Rehberg's

THE new raiment for Easter and Spring wear finds its fullest exemplification in this stock. All the beauty, style and quality is embodied into suits and coats which readily equal the offerings of others and at \$2 to \$3 less. All we ask is to allow us to demonstrate.

At \$12 The new style suits in single breasted coats, long lapels in grays and dark mixtures, black and blues, equal to any \$15 suit in the country—coats cut 31 to 32 in. in length.

At \$15 to \$18 Hand built suits with hand made button holes and hand felled collars, the nattiest, nicest clothes man ever put on his back at the price. Pretty patterns, grays, mixtures and blues and black.

At \$20 and \$25 Custom tailored suits—the kind that defy the tailor to equal at a third more—beautifully trimmed and made to fit. The hang of the coat is perfect.

To Hear From Cooper

We wish to call the attention of the public to a series of "short talks" by L. T. Cooper that are to be published in this paper.

The Cooper medicines have made a remarkable record in the leading cities of the United States during the past two years and young Mr. Cooper has been the subject of much newspaper comment.

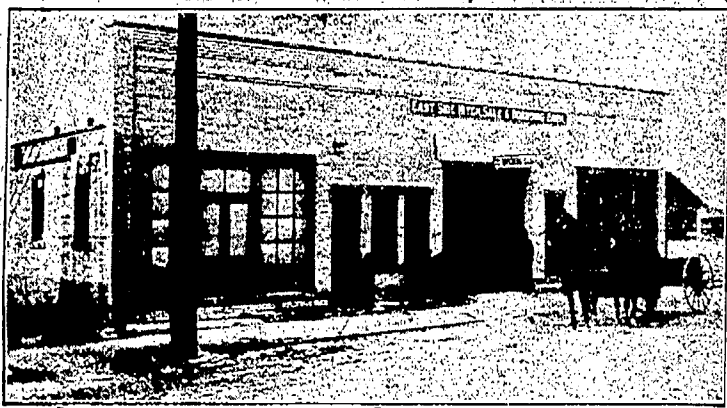

Mr. Cooper has met and talked with thousands of sick people in his visits to almost every large city in the country.

He is noted as a man of very few words and tells briefly in these articles what his preparations are doing for sick people and why they have been successful wherever introduced.

Mr. Cooper's theory is that one half of all human ills is caused by stomach trouble, and the wonderful success of his preparations in the treatment of stomach disorders, kidney and liver complaints, rheumatism, etc., seems to have proven this claim.

Some time ago we secured the agency for these celebrated medicines. We have been gratified by the extreme satisfaction of those who have purchased them from us and advise every one to read these "short talks" as they are full of terse, common sense.

M'INTYRE AND HEATH IN "THE SOUTHERN ALLY."

A Southern Ally. On its visit to Janesville "The Gleaner" will rejoice in a real southern ally. There was a peculiar appropriateness in the choice of Miss Ruth Hart for the role of Nollie Graham, the girlish messenger of the Ku Klux Klan. In conversation with her, George H. Brennan learned that on her mother's side she is a member of the South Carolina family pictured in the play as the Grahams. The real name of the "Graham" clan is MacDonald, and they are very prominent in Piedmont, S. C., where the scenes of the play are located. The first MacDonald in South Carolina was a descendant of the celebrated Flora MacDonald, who saved the Young Pretender from capture after the battle of Culloden. The branch that settled in France produced Marshall MacDonald, the great general of Napoleon. Everywhere the family have been fighters, and the male members were among the most daring of the Ku Klux Klan in the South after the Civil War. One of them swore his young sister into the service of the Klan and she performed human service for it, thus affording the basis of the incident in the play where Nellie Graham volunteers as the Ku Klux messenger. As the real Nellie Graham, or Nellie MacDonald rather, was a relative of Miss Hart, she ought to give a realistic interpretation of this Dixie role.

PACIFIC NORTHWEST IS QUITE ISOLATED

TELEGRAPHIC TIE-UP DUE TO RAIN AND SNOW STORMS.

WASHOUTS ON RAILWAYS

Train Service in California Is Badly Demoralized—Sacramento Is to Be Reached Only from the East.

Chicago, March 22.—Continuous heavy rains, resulting in serious washouts, violent wind storms, and a wet clinging snow have combined to produce a complete telegraphic tie-up in the Pacific northwest. The states of Montana, Idaho, Washington and Oregon have been isolated since early Thursday, and there seems to be no immediate prospect of an improvement in the situation.

Wednesday night a heavy wind storm passed over Great Salt Lake from the southwest to the northeast and by driving the water with terrific force against the Southern Pacific cutoff across the western part of the lake, washed out an extensive section of the track, compelling a discontinuance of train service. The tracks of the Southern Pacific at Rambo, 35 miles west of Ogden, are entirely covered with water and since midnight, March 20, no trains from the west have arrived at Ogden.

Sacramento, Nearly Isolated. San Francisco, March 22.—The train service out of the city is badly demoralized as a result of the heavy rains and washouts. Sacramento at present is entirely cut off from rail-road communication with the outside world except from the east. By main line Sacramento is but 90 miles distant. If it is seen that there is no other way of bringing in eastern trains it is the Southern Pacific company's intention to run a train to and from Sacramento to Fresno, thence north by way of Modesto, Tracy and Niles into Oakland Mole, a distance of 374 miles. Not an eastern train left Thursday via the Ogden route.

From Marysville, Cal., it is reported that all the reclamation districts in Sutter county have been flooded. Near Meridian the water is in the second stories of houses, and many families are said to be in want.

Three Railways Tied Up. Los Angeles, Cal., March 22.—For the first time in ten years all rail communication from San Francisco and the north is severed as a result of the floods and consequent washouts and landslides. All three transcontinental lines are affected—Southern Pacific, Salt Lake and Santa Fe.

The Santa Fe is transferring passengers to boats at Stockton, and expects to maintain traffic between there and San Francisco by that means. The Salt Lake line is in worse condition than ever. For weeks all through traffic on the Clark road has been suspended owing to the destruction of 80 miles of road bed in Meadow valley canyon in Utah.

ROBBERS GET RICH BOOTY

PLUNDER THE SUMMER HOME OF HENRY SIEGEL.

Valuable Paintings, Rare Bric-a-brac and Silverware Taken—Former Employee Is Suspected.

New York, March 22.—The robbery of the summer home of Henry Siegel at Mamaroneck, some time Wednesday night has provided a mystery which the police were unable to solve. Seven paintings valued at thousands of dollars, bric-a-brac collected at great cost in Europe and considerable silver were stolen. The value of the articles taken was not estimated by members of the family, but in some quarters it was said that it would reach well over \$50,000.

Mr. Siegel is in Boston. Mrs. Siegel remained in New York Wednesday night, a gardener and assistants being the only persons about the Mamaroneck residence. They say they heard no unusual noises during the night. Entrance was gained through a front window, and the house was ransacked, drawers being searched, cupboards opened, rugs taken, solid silver purloined, while plated matter was bent and thrown aside and paintings cut from their frames.

A curious feature of the case is that the thieves went to a bathroom and secured a key of the dining-room, where the house keys were kept. When they got these the task of opening the locked doors where valuables were stored was easy.

Mrs. Siegel said Thursday night that she had a suspicion as to the thief, and intimated he might once have been employed in the house.

The Siegel home faces Long Island sound, and it is believed the robbers used a power boat to approach the premises and carry away the loot.

Boston, March 22.—Regarding the robbery of his summer home Henry Siegel said Thursday: "I was notified that 'Driftwood' was broken into by burglars during the night or early in the morning. Several paintings which I purchased from the collections of the late Cyrus M. Field and the late Chief Justice Chase were taken and a quantity of bric-a-brac, purchased in all parts of the world, is missing. I can place no money value upon the paintings, for to me they were invaluable. The bric-a-brac cannot be duplicated."

Uncommon Use.

A young couple moved into a new flat which had never been occupied. The young wife was prowling about with a pan full of hooks, big and little, inserting them in proper places for the hanging of clothes, etc. In one place the wood seemed too hard for the screw of the hook to enter, and she got a gimlet to make a little preliminary hole. The gimlet didn't work either, and she called to her husband: "Harry, I wish you'd see if you can make this gimlet go in."

Harry came, looked and laughed. "Your difficulty speaks better for your morals than your mechanics, my dear," said he; "you're trying to bore a hole with the corkscrew."

Origin of "Surname." The term surname is supposed by some to be derived from the French surname, meaning "over name," because a person's family name was formerly written above instead of after the baptismal name.

The Sneerer and His Sneer.

The sneer is an arrested bite. It is a mark of the savage. The man who sneers is that much less of a gentleman. The sneerer would bite if he was not afraid to do so. He is a coward. The sneerer is a savage whether he sneers in print or not. If he writes down his sneers he has not removed himself from the ranks of the savagery. He yet remains one of the worst savages, however his English be polished and his style be sparkling. The sneer does turn into a bite when even the savage who indulges in it acquires courage. While he is a coward remains an arrested bite.—Columbian Herald.

How Soldiers Reduce.

Soldiers have an easy way of keeping their figures supple and trim. The officer who finds his waist growing greater than his chest, thus destroying the symmetry of his uniform, eats for a little while nothing but lean meat, and drinks nothing but hot water. Thus he loses two pounds or so a day. He keeps this diet up till he has sufficiently diminished himself—a matter, as a rule, of but three or four days' abstinence—and then he returns to his usual food again.

Many army officers of a corpulent inclination manage, by confining themselves to lean meat for three days in the month, to keep their figures perfect.

Was of High Degree.

A little West Philadelphia girl a few weeks ago became the owner of a puppy and the sister of a new baby brother all in one day. The puppy was of valuable collie stock. A week or so after these important events she met the minister of her church and he asked her the baby's name.

"He has not yet been named," was the child's answer.

"How about your little doggie," he asked.

"Yes, sir, we call him Tip," replied the girl.

"How is it the puppy has a name and the little boy has not?" asked the minister.

"You know that Tip has a pedigree."

Had Good Eyesight.

A young man from the rural districts went to Boston, and while there visited the Harvard astronomical observatory and was allowed to look through a great telescope at the stars. "What is that star?" he inquired, pointing to a very bright one. "Oh, that's Aldebaran," replied the attendant.

"Is it very far off?" asked the youth. "About 10,000,000 miles."

"Then all I can say," said the visitor, "is that you must have wonderfully good eyes to make out that star's name, at that distance, even with that big telescope. It's really most marvelous."

Things That Count.

Let the weakest, let the humblest remember, that in his daily course he can, if he will, shed around him almost a heaven. Kindly words, sympathizing attentions, watchfulness against wounding men's sensitiveness, these cost very little, but they are priceless in their value. Are they not almost the staple of our daily happiness? From hour to hour, from moment to moment, we are supported, blest by small kindnesses.

Charles Skellenger, a janitor of Mason City, Ia., has been notified that he is heir to \$33,000 as his share of the estate of Gen. Butterfield of Syracuse, N. Y., his great-grandfather.

The strike at the plants of the Republic Iron and Steel company, and the Interstate Steel company at East Chicago, Ind., was settled by the agreement of the men to accept a ten per cent. increase.

PEASANTS AND TROOPS FIGHT. Bloody conflicts occur in several Roumanian towns.

Bucharest, Roumania, March 22.—Plundering recommenced Thursday at Vaslui. The peasants surrounded the administrative palace, intending to demolish the building. Further plundering occurred throughout the town. Troops intervened and the major commanding and several officers were wounded. The soldiers then fired on the mob and wounded some of the rioters. Five of them were stabbed with bayonets.

Another collision occurred at Jassy between troops and peasants trying to invade that town. Major Colori was wounded, two peasants were killed and many were wounded. The peasants succeeded in breaking the cordon and entering the town, where they looted several residences. A number of neighboring villages were plundered.

Four peasants were killed and two were wounded at Lespezi, in an attempt to seize the arms at the gendarmes' barracks.

Letter to Mr. J. Sheridan, Janesville, Wis.

Dear Sir: There's twice as much horse in a horse—it may be a mare—as there is in two or three others together.

There are paints adulterated three do your job with 10 gallons Devos for \$50; it'll take 12, 15 or 20 of other paint, and the cost of a job is about \$5 a gallon whatever the paint may be.

There are painters adulterated three quarters—only one quart of paint in a gallon—he's got to paint four gallons of rubbish to get one gallon of paint. The worst horse you've got is as good as that paint, and he'll go as far.

The loss-gallon paint is the paint, as the most-horse is the horse.

Yours truly, F. W. DEVOS & CO., New York and Chicago

Keep Mum. Women, as women, are pretty much alike. They have the same hair, differing slightly only as to color and length; same features, same thoughts. When we love one of them, therefore, we are in reality loving them all. But it is just as well not to mention this.—Life.

RIGHT-HANDED — LEFT-LEGGED.

Peculiarity of Humanity That is Not Generally Considered.

Most people would think that as man is, with very few exceptions, "right-handed," he would be at the same time "right-legged." But this is not the case. Almost every right-handed man uses his left leg more than his right. For instance, most people find it much more natural to go round circles to the right than to the left. That is, because they start with the left leg. Being stronger, it is more readily brought into action, and it is on this account that bodies of soldiery always start to march with the left foot. Almost all courses for foot races are made out for running to the right, and dancers will endorse the statement that the majority of movements are far more easily executed in this direction. The left foot is the one that is placed in the stirrup for mounting a horse, and in jumping, it is from the left foot that the athlete "takes off." Thus it will be seen that, as a general rule, "right-handed" people are "left-legged."

Permanent Employment.

Old Sam had been for several days patiently sitting on the bank of the Nappahannock river, near the dam, holding his shotgun in his hand. Finally he attracted the attention of a passer-by, who asked: "Well, Uncle Sam, are you looking for something to do?" "No, sah," answered Sam; "I've gettin' paid for what I's doin'."

"Indeed!" answered the stranger. "And what may that be?" "Shootin' de muskrats dat am underminin' de dam," answered Sam. "Well, there goes one now," exclaimed the stranger excitedly. "Why don't you shoot it?" "S'pose I wants to lose my job, sah?" answered Sam complacently.

It All Depends on the Maker

And our suits are the production from several of New York's best manufacturers; they possess that individuality so much desired by well dressed women. The present showing consists of upwards of a hundred new, nobby suits, and we can please the most critical. UP TO COMMITTEE
TO FILL VACANCY

DEMOCRATS HAVE FOUR OFFICES
WHICH THEY CAN FILL.

NEW PHASE OF THE LAW

Old City Committee Will Act on the
Question—Held Informal
Meeting.

It has been decided that the Pri-
mary Law permits the city commit-
tees of the two parties to fill in any
vacancies in their city ticket where
candidates nominated withdrew. This
will mean that if S. B. Hedges re-
fuses to allow his name to appear in
the democratic column for the mayor-
ship preferring to run on the re-
publican ticket and Louis Skavlem
who received the democratic nomina-
tion for city clerk withdraws, those
two offices can be filled by the city
committee. The office of justice for
two years and a school commissioner
at large can also be named.

Informal Meeting
It was learned this morning that
Mr. Skavlem has not withdrawn his
name as yet, but that he anticipates
doing so. The democratic city com-
mittee held an informal meeting last
evening and decided that if Mr. Skav-
lem withdrew Frank L. Smith would
be named as the democratic candi-
date. Later a formal meeting will
be held and this choice ratified. The
question of a mayoralty candidate
was not discussed according to re-
ports this morning and it is not prob-
able that any one will be named for
the office. The committee can also
name a candidate for the two-year
term for Justice of the Peace and
for school commissioner at large.

The Committees
There has been no election of a
city committee under the primary
law, the old committee holding over.
This consists of J. J. Cunningham,
chairman; first ward, Frank Croak;
second ward, Edward Connell; third
ward, George Sutherland; fourth
ward, C. Connors; fifth ward, Geo.
Coff. The republican city commit-
tee consists of Mr. C. Mount, chair-
man; W. McInyre, secretary; first
ward, S. B. Hedges; second ward, C.
L. Valentine; third ward, W. J. Mc-
Intyre; fourth ward, A. G. Anderson;
fifth ward, Orville Morse.

If the Truth Were Told.
One trembles to imagine what the
world would be like if everyone said all
that he or she thought without reser-
vation, and if one's conscience would
allow one to compliment one's hostess
after her hopelessly dull entertain-
ment, or to praise a friend's frock
against one's judgment.

A Voice From
The Stomach

A Bloodless Fight Between a Tab-
let and a Habit—The
Tablet Wins.

At the age of 22, Clarence had good
digestion. He had gastric juice that
could dissolve doughnuts and turn
appleskins into good blood corpuscles.
At the age of 24 he began to be pro-
fess about the waist and lean back-
wards. He also began to cultivate
several chins. In his new-found pride
he began to think it his duty to gorge
himself on everything, the good and
the bad, for appetite feeds on appetite
—and every good thing is abused.
His pictures showed that he took
on weight after he put his collar on.
At the age of 26 Clarence married
and went to boarding. On top of all
this, he attended oyster suppers and
wine dinners, which reduced the size
of his collar from 16 1/2 to 15. With
still abiding faith in the strength of
his stomach he gulped his meals, and
chewed them afterwards.

At the age of 28 Clarence began to
hear an inward voice—a warning
from the stomach. After each meal,
he would feel bloated and belching
became a habit.
He began to be a light eater—and
a heavy thinker. He tried to think
out a cure, for now he would sit down
at his meals absolutely disgusted at
the thought or sight of anything to
eat.
He would sit down at his meals
without the trace of an appetite, just
because it was time to eat.
He would often feel a gnawing,
unsatisfied "still-hungry" feeling in
his stomach, even after he was
through eating, whether his meal was
well cooked or not.
And he suffered a good many other
things with his stomach that he could
not explain, but that made him
grouchy, miserable, out-of-sorts and
generally sour on everybody and
everything.

Finally he read an account, some-
thing like this, about the truly won-
derful results obtained from Stuart's
Dyspepsia Tablets in all cases of
stomach trouble, dyspepsia, and so on.
He bought a 50c box at the drug
store, and took the whole box. When
he started, he had little faith—and less
appetite. When he finished he had
absolute faith—and more appetite, and
more good cheer. Things began to
taste different and better to him.

Now he has no more dyspepsia, no
more indigestion, no more loss of ap-
petite, brash, irritation, burning sen-
sation, heartburn, nausea, eructations,
bad memory, or loss of vim and vigor.
Remember, one ingredient of Stuart's
Dyspepsia Tablets will digest
for you 5,000 grains of food, just as
it did for Clarence.

This relieves your stomach of the
work of digesting until your stomach
can get strong and healthy again.
Your stomach has been overworked
and abused. It's tagged out. It needs
a rest.
Let Stuart's Dyspepsia Tablets do
the work of your stomach. You will
be surprised how fine you'll feel af-
ter eating, and how lusciously good
everything will taste to you.
Heed the call of the stomach now!
There's a world of good cheer in one
box of Stuart's Dyspepsia Tablets—
at any drug store, 50c.

day and we will at once send you by

MOCK TRIAL FOR A
MOONLIGHT SINGER

Afton Literary Society Held Inter-
esting Session to Close
Winter's Work.

Afton, March 22.—"Guilt" was the
verdict rendered by the jury in the
case of the "State of Wisconsin vs.
Otto E. Uehling," which was held at
the Afton schoolhouse last Tuesday
evening. In the complaint Mr. Uehling
was charged with having been a
disturber of the peace, Roy Antisiel
being the complaining witness. It
was alleged that on the night of
February 26th, 1907, the defendant,
while returning home from the Moon-
light club, meeting at Shopiere, did,
under the guise of singing, make
sundry horrible noises, thereby dis-
turb the peace and dignity of the
state of Wisconsin. The trial was
held before Judge David Thorne, with
District Attorney O. D. Antisiel in
charge of the prosecution, while
Drafiel and McCrea looked after the
interests of the defendant. Owing to
illness, Assistant District Attorney
Floyd Miller was unable to appear
in the case as planned, and Mr. An-
tisiel conducted the prosecution
alone. The jury impaneled to try
the case was made up as follows:
George C. Antisiel, foreman, George
W. Robb, Frank C. Miller, Sarah Z.
Drafiel, Grace Antisiel and Maggie
Oakley. The court officials compris-
ed Harry Robb, clerk of court; Jes-
sie M. McCrea, stenographic repor-
ter; W. J. Miller, sheriff; Fred Keth-
elohn and G. S. Otis, deputy sher-
iffs. Witnesses called by the state
included Roy Antisiel, Ethel E. Sop-
er and Emma Drafiel, while for the
defense Selma Hammel, Nellie J.
Douglas and the witness stand. This
was Mr. Antisiel's first appearance
in court as public prosecutor and he
is to be congratulated on his suc-
cess. Mr. McCrea, junior member of
the firm of Waite & McCrea, also
made his initial appearance and his
ability was the subject of favorable
comment on the part of those present.
The mock trial was arranged as the
closing event of the season by the
literary society, the idea being to
show its members the method of pro-
cedure in a trial by jury, as well as
to "have a bit of fun, and on both
counts it was voted a success. Inter-
est in the affair was evidenced by
the large number in attendance and
the excellent order maintained
throughout. The society has had a
pleasant and profitable winter of
study and closes the season with the
largest membership in its history.

Farewell Dinner a Surprise.
The Ladies Aid society gave a fare-
well dinner at the home of Mrs.
Nellie McCrea last Wednesday, in
honor of Mrs. Frank H. Otis, who
expects to leave soon for her new
home in Canada. The affair was in
the nature of a surprise for Mrs. Otis
was not participated in by the fol-
lowing members of the society: Mes-
dames C. H. Antisiel, J. C. Eddy,
M. A. Hayner, C. H. Hayner, L. A.
Hayes, W. R. Kilmer, F. H. Otis, G.
W. Robb, C. F. Waite and U. G.
Waite. Other ladies present, non-
members of the society, were Mes-
dames G. C. Antisiel, J. B. Eddy,
John Kilmer and H. E. McCrea. Miss
Nellie McCrea, as hostess, made it
pleasant for all and the event was
successful in every detail.

Aid China Famine Sufferers
At the Loyal American meeting,
held at the home of President Wil-
liam Denoyer last Saturday evening,
it was unanimously voted to send the
entire proceeds of the box social, to
be held at Brinkman's hall on
Thursday evening of this week, to
help swell the China famine relief
fund, being raised by the Christian
Herald. At this meeting U. G. Waite
was elected delegate and William
Denoyer alternate to the meeting of
the general assembly, to be held
Thursday, April 18th. The place for
holding this general assembly meet-
ing will be decided by vote of the
various local assemblies prior to Ap-
ril 1st, Afton assembly voting for
Madison as the location.

Hogs' Strange Behavior.
Hogs over near the good church of
Providence are acting queerly here re-
cently. One of my grave, dignified
stewards was telling me about it the
other day.

"Brother Wm.," said he, "a strange
thing is happening over in our com-
munity." "What in the world is it?"
said I. "Well," replied my steward,
"it's the hogs. They are acting as I
never saw them before. They are ac-
tually rubbing their tails off." "You
don't tell me—rubbing their tails off?"
Steward—"Yes, sir, it's a fact. It
seems it is some sort of a disease that
peculiarly affects that part of the
hog's anatomy, and he goes to a pine
tree and rubs until the tail is excom-
municated. We have more bobtail
hogs in my section than you can
shake a stick at."—Southern Christian

Homes in the Northwest.
Why not settle on the government

are improved, in South Dakota; thus
staying near at hand instead of jour-
neying to a distant region where the
climatic conditions and social sur-
roundings are widely different? Spe-

MARINES LANDED
IN HONDURAN PORTS

FULLAM PUTS MEN IN CEIBA AND
TRUJILLO.

GOES TO PUERTO CORTES

American Interests Now Thoroughly
Protected There and Foreign Crit-
icism Disarmed—Nicaragua
Claims Big Victory.

Washington, March 22.—Bluejack-
ets and marines have been landed
from the United States gunboat Mari-
etta at Trujillo and Ceiba and proba-
bly at Puerto Cortes, Honduras, in
order to protect American interests
in those ports. Advice to this effect
were received Thursday at the navy
department from Commander Fullam
of the Marietta, and they were at
once transmitted to the state depart-
ment.

As yet no word has been received
as to whether forces have been land-
ed at Central American ports on the
Pacific coast side, but undoubtedly
this step will be taken if American
interests are considered in danger.

The navy department feels that the
action taken by Commander Fullam
brings the situation completely in
hand so far as the safeguarding of
trade interests is concerned. In addi-
tion to the protection given to Ameri-
cans it is felt that the action of this
government will relieve foreign gov-
ernments of the necessity of taking
any steps toward making a naval
demonstration. The landing of blue-
jackets and marines and the policing
of both shores of the Central Ameri-
can republics with United States gun-
boats before trading vessels have been
molested in any manner or foreign in-
terests jeopardized is regarded here
as a diplomatic move that will pre-
vent any international complications
growing out of the policy of the United
States not to permit European demon-
strations in Central American or
South American waters.

Several Landing Parties.

From the meager dispatches receiv-
ed it appears that Commander Fullam
has been cursing up the Honduran
coast from east to west. It is un-
derstood that he landed a force of
about 20 marines from the Marietta
at Trujillo, and 20 bluejackets at
Ceiba, and then continued his course
to Puerto Cortes. It is said the dis-
patch to the navy department was
sent by Commander Fullam before
his departure from Ceiba and that it
indicated an intention on the part of
the commander to land a force of 15
or 20 men at Puerto Cortes.

The Nicaraguan commander in
charge of the invading force at the
Honduran port, Trujillo, gave com-
mander Fullam his promise that
American interests and all foreign in-
terests there would be protected and
that trading vessels would be per-
mitted to enter and leave the port
without molestation, the same as be-
fore the capture of the port by the
Nicaraguan navy.

The collier Nero has been left at
Trujillo by Commander Fullam; that
it may serve as a base for the small
landing parties. The commander ex-
pressed the view, it is said, that no
more would be needed in the Carib-
bean than are there now.

Both coasts of the warring Central
American republics are completely
covered by American gunboats.

Intervention Is Probable.
Joint intervention by Mexico and
the United States in the war which
threatens to involve Central America
is now regarded as probable by diplo-
matists. Tenders of good offices on
the part of the two great governments
have not been heeded by Nicaragua,
Honduras and Salvador, and it has
been suggested to the state depart-
ment that Mexico and the United
States should send plenipotentiaries
to the warring countries, to investi-
gate the causes of the present war
and order an immediate cessation of
hostilities.

It has been pointed out to the state
department that the cooperation of
Mexico with the United States in re-
storing peace in Central America
would disarm criticism of the United
States and show that it has no
thought of acquiring any territory of
Latin American republics.

Nicaragua Claims Victory.
Managua, Nicaragua, March 22.—A
dispatch received here from the front
at 10:05 p. m. Wednesday said:
"The Honduran and Salvadorean
army, numbering over 5,000 men, at-
tacked the Nicaraguan positions at
Portillos de Namasique, and after
three days and two nights of fight-
ing the Hondurans and Salvadoreans
were completely defeated, leaving
hundreds of dead and wounded on the
battlefield. The Nicaraguans also
captured many prisoners, among them
being several officers, besides 2,000
rifles and great quantities of all kinds
of war munitions.

"The defeated Salvadorean officers
included Gen. Presa, Gen. Avolar and
Gen. Colacho. The Honduran com-
mander defeated was Gen. Liconia.
"The Nicaraguans lost many men
wounded and had a few killed.
"Gen. Lopez Garcia and Colonel Pe-
dro Nolasco have been defeated at
Maratita by the Honduran revolution-
ary and Nicaraguan forces. Many
Honduran soldiers and a number of
rifles, with ammunition, were cap-
tured by the allied troops.

"La Ceiba, a Honduran port on the
Atlantic, has been captured by the
Nicaraguan forces."

CHANNEL TUNNEL KILLED

BRITISH GOVERNMENT HAS DE-
CIDED AGAINST SCHEME.

Leaders in Parliament Announce the
Proposed Bore Would Make the
Public Too Anxious.

London, March 22.—The revived
project of tunneling the English chan-
nel, received its death blow, at least
for a long time to come, by the an-
nouncement of the government's well
considered decision against the enter-
prise in parliament Thursday.

Premier Campbell-Bannerman in
the house of commons, and the earl
of Crewe, lord president of the coun-
cil in the house of lords, made identi-
cal announcements to this effect,
which were echoed and approved by
Mr. Balfour, the opposition leader in
the lower house, and Lord Lansdowne,
the leader of the opposition in the up-
per house. It is understood that the
bill will now be withdrawn.

The premier, in announcing his de-
cision, said:
"Even if the military dangers could
be completely guarded against, there
would be a feeling of insecurity, lead-
ing to constant demands for increased
naval and military expenditure, and
creating a feeling of alarm injurious
to the country's commercial and polit-
ical interests, which would not be
compensated for by the advantages of
the tunnel."

Lord Lansdowne, in the house of
lords, referring to the fact that he
himself supported the idea of a tun-
nel many years ago, said he was in-
clined now to think that its dis-
advantages outweighed its advan-
tages, inasmuch as the existence of a
tunnel would always be a source of
great anxiety to the general public,
even in peace times, and certainly
when war was in progress or was im-
minent. It was on this sentimental
rather than strategic ground that he
approved the government's decision.

DOCTOR'S ALL AGREE THIS TIME.

The most eminent writers on *Materia Medica*, whose works are consulted as authorities and guides in prescribing by physicians of all the different schools of practice, extol, in the most positive terms, the curative virtues of each and every ingredient entering into Dr. Pierce's Golden Medical Discovery. In fact it is the only medicine, put up for sale through druggists for the cure of all diseases of the mucous surfaces, as nasal catarrh, throat, laryngeal, and bronchial affections attended by lingering, or hang-on-coughs that has any such professional endorsement—worth more than any amount of lay or non-professional testimonials.

Do not expect too much from the use of Dr. Pierce's Golden Medical Discovery. It will not work miracles. It will not cure consumption in its advanced stages. No medicine will. Nor is the "Discovery" so good for a sudden attack of acute cough, but for the lingering, obstinate, hang-on-coughs, accompanying catarrhal, throat, laryngeal and bronchial affections, it is a most efficacious remedy. In cases accompanied with wasting of flesh, night-sweats, weak stomach and poor digestion with faulty assimilation, and which, if neglected or badly treated, are apt to lead to consumption, the "Discovery" has proven wonderfully successful in effecting cures.

Besides curing all the above distressing ailments, the "Golden Medical Discovery" is a specific for all diseases of the mucous membranes, as catarrh, whether of the nasal passages or of the stomach, bowels or bladder. Even in its ulcerative stages it will yield to this sovereign remedy if its use be persevered in. In Chronic Catarrh of the Nasal Passages, it is well, while taking the "Golden Medical Discovery" for the necessary constitutional treatment, to cleanse the passages freely two or three times a day with Dr. Sage's Catarrh Remedy. This thorough course of treatment generally cures the worst cases.

If you have bitter or bad taste in the morning, poor or variable appetite, coated tongue, foul breath, constipated or irregular bowels, weak, easily tired, despondent, frequent headaches, pain or distress in "small" of back, general weakness, distressed feeling in stomach, perhaps nausea, bitter or sour "risings" in throat after eating, and kindred symptoms of weak stomach and torpid liver, no medicine will relieve you more promptly or cure you more permanently than Doctor Pierce's Golden Medical Discovery. Perhaps only a part of the above symptoms will be present at one time and yet point to torpid liver or biliousness and weak stomach. Avoid all hot bread and biscuits, griddle cakes and other indigestible food and take the "Golden Medical Discovery" regularly and stick to its use until you are vigorous and strong.

Poor impure blood can be made pure by the use of Dr. Pierce's Golden Medical Discovery. It enriches and purifies the blood, thereby curing, pimples, blotches, eruptions and other cutaneous affections, as eczema, tetter, or salt-rheum, liver and other manifestations of impure blood.

In the cure of scrofulous swellings, enlarged glands, open eating ulcers, or old sores, the "Golden Medical Discovery" has performed the most marvelous cures. In cases of old sores, or open eating ulcers, it is well to apply to the open sores Dr. Pierce's All-Healing Salve, which possesses wonderful healing potency when used as an application to the sores in connection with the use of "Golden Medical Discovery" as a blood cleansing constitutional treatment. If your druggist don't happen to have the "All-Healing Salve" in stock, you can easily procure it by enclosing fifty-four cents in postage stamps to Dr. R. V. Pierce, 663 Main St., Buffalo, N. Y., and it will come to you by return post. Most druggists keep it as well as the "Golden Medical Discovery."

Not only does the "Discovery" cure every kind of Dr. Pierce's Golden Medical Discovery, the famous medicine for weak stomach, torpid liver or biliousness and all catarrhal diseases wherever located, have printed upon it, in plain English, a full and complete list of the ingredients composing it, but a small book has

LEFT BIG MAN THINKING.

Visitor's Remark Tended to Reduce "Swelled Head."

There are men in high positions in New York who are a credit to them only in their business ability. One of that sort came to the city a dozen or more years ago from a western town, where he made his start. A gentleman who had known him in his less pretentious days called on him recently. "I simply called to pay my respects," he said, going a little lame at the reception he received. "I have no axes to grind and no favors to ask. You may have forgotten me, but I met you several times on business visits to your old town, and I thought I'd like to see how you were talking to the metropolis." "Yes, yes," responded the man at the desk, picking up a paper, as if he were very busy, and speaking in the tone of the person who sizes up other people on their material possibilities. And that's all he said. The visitor shook himself and got a fresh hold. "Yes," he said, turning to go, "I called to pay my respects, but I discovered that I don't owe any Good-morning." Then he walked out, and the big man had a more uncomfortable feeling than had come to him since he had been in the big city.—N. Y. Press.

No Wonder He Groaned. Mrs. Fabbins has written to the Society for the Prevention of Cruelty to Animals to know if something can be done to prevent horses from being scratched. She is sure it must be very painful, because her husband, a racing man, is sometimes quite upset and she hears him groan in his sleep about a horse being scratched.

NOT JUST AT THAT TIME.

Editor Thought He Could Get Along Without Article.

The story is told of a writer who, through boldness in attacking the established order of things, had considerable vogue for a short time. In the midst of his notoriety he decided that he would contribute to a certain well-known magazine, in whose pages he had not yet been represented. He waited on the editor, and found him immersed in some hurried writing. "Ah, Mr. Blank," said the author, with that immunity from modesty which distinguished him, "you want an article from me." "Indeed?" queried the editor, going on with his writing. "Indeed?" "One article to begin with," pursued the author. "And I am willing to do it for you in spite of much work." "Indeed?" said the editor, as before. "I should say," followed up the author, "that for such an article as I have in mind, starting and original, I will close with you for \$1,000." The editor's pen drove on. "Close with me!" he murmured. "Close! Will you kindly close the door as you go out?"

Not for Her. An English vegetarian proposed to a woman, whereupon she delivered herself of the following scathing words: "Go along with you! What? Be flesh of your flesh, and you alliving on cabbage? Go and marry a grass widow!"

When Tired Eat Raisins. Raisins, by the way, are now recommended as a "pick-me-up" between meals. One well-known London doctor affirms that a bunch of raisins eaten when fatigued is of more value than a glass of wine under such circumstances.

CHRONIC ULCERS EXTERNAL EVIDENCE OF INTERNAL POISON

Whenever a sore or ulcer refuses to heal, it is a sure sign of a diseased condition of the blood. The sore itself is simply an outside evidence of some internal poison, and the only way to cure it is to remove the deep underlying cause. Sores and Ulcers originate usually from a retention in the system of bodily waste matters and impurities. These should pass off through the natural avenues of waste, but because of a sluggish condition of the different members they are retained in the system to be taken up by the blood. This vital fluid soon becomes unhealthy or diseased, and the skin gives way in some weak place and a Sore or Ulcer is formed. The constant drainage of impurities through a sore causes it to fester, grow red and inflamed and eat deeper into the surrounding flesh, and often there is severe pain and some discharge. S. S. S. is the remedy for Sores and Ulcers.

It is nature's blood purifier, made entirely of vegetable matter, known to be specific for all blood diseases and disorders. S. S. S. goes down to the very bottom of the trouble, and removes the poison and impure matter, so that the sore is no longer fed with impurities, it is nourished and cleansed with a stream of healthy, rich blood. Then the place begins to heal, new flesh is formed, the inflammation subsides, and when S. S. S. has thoroughly cleansed the circulation the place heals permanently. Special book on Sores and Ulcers and any medical advice desired will be sent free to all who write.

CHAPTER X.

The Face in the Crowd. Except the time given to the children—there were presently three—my life, in all its thoughts and associations, was now politics: at Washington from December until congress adjourned, chiefly national politics, the long and elaborate arrangements preliminary to the campaign for the conquest of the national fields; at home, chiefly state politics—strengthening my hold upon the combine, strengthening my hold upon the two political machines. As the days and the weeks, the months and the years, rushed by, as the interval between breakfast and bedtime, between Sunday and Sunday, between election day and election day again, grew shorter and shorter, I played the game more and more furiously. What I won, once it was mine, seemed worthless in itself, and worth while only if I could gain the next point, and when that was gained, the same story was repeated. Whenever I paused to reflect, it was to throttle reflection half-born and hasten on again.

"A silly business, this living, isn't it?" said Woodruff to me. "Yes—but—" replied I. "You remember the hare and the hatter in 'Alice in Wonderland.' Why?" said the hare. "Why not?" said the hatter. A sensible man does not interrogate life; he lives it."

"H'm," retorted Woodruff. And we went on with the game—shuffling, dealing, staking. But more and more frequently there came hours, when, against my will, I could drop my cards, watch the others; and I would wonder at them, and at myself, the maddest of these madmen—and the saddest, because I had moments in which I was conscious of my own derangement.

I have often thought on the cause of this dissatisfaction which has never ceased to gird me, and which I have learned girds all men of intelligence who lead an active life. I think it is that such men are like a civilized man who has to live among a savage tribe. To keep alive, to have influence, he must pretend to accept the savage point of view, must pretend to disregard his own knowledge and intelligent methods, must play the game of life with the crude, clumsy counters of caste and custom and creed and thought which the savages regard as fit and proper. Intelligent men of action do so as clearly as the philosophers; but they have to pretend to adapt their mental vision to that of the mass of their fellow men or, like the philosophers, they would lead lives of profitless inaction, enunciating truths which are of no value to mankind until it rediscovered them for itself. No man of trained reasoning power could fail to see that the Golden Rule is not a piece of visionary altruism, but a sound principle of practical self-interest. Or, could anything be clearer, to one who takes the trouble really to think about it, than that he who advances himself at the expense of his fellow men does not advance but sinks down into the class of murderers, for gain, thieves, and all those who seek to advance themselves by injustice? Yet, so feeble is man's reason, so near to the brute is he, so under the rule of brute appetites, that he cannot think beyond the immediate apparent good, beyond today's meal.

Once said to Scarborough: "Politics is the science and art of fooling the people." "That is true, as far as it goes," he said. "If that were all, justice, which is only another name for common sense, would soon be established. But, unfortunately, politics is the art of playing upon cupidity, the art of fooling the people into thinking they are helping to despoil the other fellow and will get a share of the swag." And he was right. It is by subtle appeals to the secret and shameful, but controlling, appetites of men that the clever manipulate them. To get a man to vote for the right you must show him that he is voting for the personally profitable. And very slow he is to believe that what is right can be practically profitable. Have not the preachers been preaching the reverse all these years; have they not been insisting that to do right means treasure in heaven only? It was in my second term as senator, toward the middle of it, I was speaking one afternoon, in defense of a measure for the big contributors, which the party was forcing through the senate in face of fire from the whole country. Personally, I did not approve the measure. It was a frontal attack upon public opinion, and frontal attacks are as unwise and as unnecessary in politics as in war. But the party leaders in the nation insisted, and as the move would weaken their hold upon the party and so improve my own chances, I was not deeply aggrieved that my advice had been rejected. Toward the end of my speech, aroused by applause from the visitors' gallery, I forgot myself and began to look up there as I talked, instead of addressing myself to my fellow senators. The eyes of a speaker always wander over his audience in search of eyes that respond. My glance wandered, unconsciously, until it found an answering glance that fixed it.

This answering glance was not responsive, nor even approving. It was the reverse—and, in spite of me, it held me. At first it was just a pair of eyes, in the shadow of the brim of a woman's hat, the rest of the face, the rest of the woman, hid by those in front and on either side. There was a movement among them, and the whole face appeared—and I stopped short in my speech. I saw only the face, really only the mouth and the eyes—the lips and the eyes of Elizabeth Crosby—an expression of pain and of pity.

I drank from the glass of water on my desk, and went on. When I ventured to look up there again, the face was gone. Had I seen or imagined? Was it she or was it only memory suddenly awakening and silhouetting her upon that background of massed humanity? I tried to convince myself that I had only imagined, but I knew that I had seen.

Within me—and, I suppose, within every one else—there is a dual personality, not a good and a bad, as is so often shallowly said; but one that does, and another that watches. The doer seems to me to be myself; the watcher, he who stands, like an idler at the rail of a bridge, carelessly, even indifferently, observing the flow of my thought and action that tides beneath—who is he? I do not know. But I do know that I have no control over him—over his cynical smile, or his lip curling in good-natured contempt of me, of his shrug at self-exercise, or his moods when he stares down at the fretting stream with a look of weariness so profound that it is tragic. It was he who was more interested in the thoughts—the passion, the protest, the defiance, and the dread—while the sight of that face set to boiling within me. Sometimes he smiled cynically at the turmoil, and at other times he watched it with what seemed to me bitter disgust and disappointment and regret.

While this tempest was struggling to boil over into action, Carlotta appeared. She had never stayed long at Washington after the first winter; she preferred, for the children and perhaps for herself, the quiet and the greater simplicity of Fredonia. But—"I got to thinking about it," said she, "and it seemed to me a bad idea for a man to be separated so long from his wife and children—and home influences."

That last phrase was accompanied by one of her queer shrewd looks. "Your idea is not without merit," replied I judiciously.

"What are you smiling at?" she demanded sharply. "If it was a smile," said I, "it was at myself."

"No, you were laughing at me. You think I am jealous."

"Of what? Of whom?" She looked fixedly at me and finally said: "I want to tell you two things about myself and you. The first is that I am afraid of you."

"Why?" said I. "I don't know," she answered. "And the second confession?" "That I never trust you."

"Why?" "I don't know."

"Yet you are always telling me I am cold."

She laughed shortly. "So is a stick of dynamite," said she.

She stayed on at Washington.

(To be Continued.)

When He Really Begins.

A touring company had arrived at a town and were due to open that night, when it was discovered that the trombone was ill. A local substitute was provided, and the performance was given. At the conclusion the conductor summoned the new-comer to him. "Look here," he said, "you must work, you know. I didn't hear much of that trombone of yours to-night." "To-night," replied the man, loftily, "I was out of form. But you wait till to-morrow, when I really begin to play. You won't be able to hear any of the other fellows then."

Very Appropriate.

A certain officer who had by no means distinguished himself in the South African war retired from the service and built himself a villa in a remote spot on the coast of Devonshire. He was showing it to a friend one day, and remarked: "The only difficulty I have is about a name for the house. I should like to hit upon something suitable—something appropriate to my military career, you know." "I see," replied his friend; "then why not call it 'The Retreat?'" —London Tit-Bits.

Dog Checked at Theater.

For the first time in history, so said the wisecracker, a dog was checked in the coat-room of a New York Theater the other night. It happened at the Herald Square. Two women entered the theater and went immediately to the retiring room near the lobby. One of them had carried in a bulldog, under her opera cloak. She asked whether she could have him checked, and checked he was, like a cane or umbrella, until the end of the performance.—N. Y. Times.

..Forty Years Ago..

Janesville Daily Gazette, Friday, March 22, 1867.—We are glad to see it.—We are glad to see workmen busy in cleaning the sidewalk in front of the Hyatt House site. A good thing to do.

Spring Like.—This has been the most like spring of any day in March. A few more like unto it will witness the sowing of grain, and general activity among farmers.

An Attempted Burglary.—On Thursday night at attempt was made by a burglar to enter the house of Mr. Frank Gray, in the Fourth Ward. The rascal tried both the front and the side door; the first without effect, and while at work on the other the inmates of the house were aroused. Mr. G. was ill, but abundantly able to handle a gun, which a messenger started to get for him from a closet near at hand, when the intruder turned the slats of the blind to see that all was quiet, and discovered a stir within. Upon this he picked up his traps and left in a hurry. Fortunately it was for him that he did so, for in another moment he would have set a charge of shot that would have settled his account effectually.

Suffrage for Women. Mr. Dow, of this county, has broken in upon the monotony of legislation, with an original speech upon the right of women to the ballot. The proposition was carried at first, but was afterwards reconsidered. Theodore Tilton writes home to the Independent that Iowa will be the first state to enfranchise women, but we hope he will be mistaken in this.

Finery Didn't Fit.
A party of women were being entertained at afternoon tea the other day by an artist who has a large collection of seventeenth and eighteenth century costumes.
One of the girls present said she would like to try on a certain gown, and soon all the guests were slipping into the quaint old finery.
But with only one exception—and she was a slim little thing of 16—no one could induce her ancient gown to meet on her, and frocks that were meant to have trains were ankle high on their wearers. The artist laughingly admitted that not one of his models could wear them.

Danderine

Grew This Hair

AND WE CAN PROVE IT.

Little Frances Marie Knowlton is the daughter of Dr. E. W. Knowlton, the discoverer of this great hair-growing remedy, and her beautiful hair was grown wholly by the use of this great tonic.
This little girl had no more hair than the average child before using Danderine, while now she has the longest and most beautiful head of golden hair ever possessed by a child of her age in the world.
Danderine makes the scalp healthy and fertile and keeps it so. It is the greatest scalp fertilizer and therefore the greatest hair-producing remedy ever discovered. It is a natural food and a wholesome medicine for both the hair and scalp. Even a 2c. bottle of it will put more genuine life in your hair than a gallon of any other hair tonic ever made.

NOW at all druggists, in three sizes, 25 cents, 50 cents and \$1.00 per bottle.

FREE. To show how quickly Danderine acts, we will send a large sample free by return mail to any one who sends this advertisement to the Knowlton-Danderine Co., Chicago, with name and address and 10 cents in silver or stamps to pay postage.

A Mistaken Idea

There are people who feel that Electric Light is expensive. They seem to argue that because it is so much better than any other illuminant, therefore it must be more costly to use.

The Cost is Lower

than for any other form of lighting when you consider the advantages of Electric Light, the saving to household decorations from soot and smoke. The fact that when once used it is seldom discontinued is the best proof of its superiority.
